RESEARCHES ON POPULATION ECOLOGY

Volume 21

1979-1980

PUBLISHED BY
THE SOCIETY OF POPULATION ECOLOGY

c/o Japan Academic Societies Center
Yayoi 2-4-16, Bunkyo-ku, Tokyo 113, JAPAN

CONTENTS

ALDRED, J. M., M. SHEPARD and P. T. HOLMES: A stochastic model of parasitism of the Mexican bean beetle, *Epilachna varivestis* MULSANT (Coleoptera: Coccinellidae), in soybeans by *Pediobius foveolatus* (CRAWFORD) (Hymenoptera: Eulophidae) ····· 286

AYERTEY, J. N.: The growth of single and mixed laboratory populations of *Sitophilus zeamais* MOTSCHULSKY and *Sitotroga cerealella* (OLIVIER) on stored maize ····· 1

BANERJEE, B.: The population characteristics of the East African red legged diplopod *Metiche tanganyciense* KRAUS (Diplopoda: Spirobolidae) ····· 303

BARCLAY, H. J.: The sterile insect release method on species with two-stage life cycles ····· 165

BIRLEY, M. H.: The estimation and simulation of variable developmental period, with application to the mosquito *Aedes aegypti* (L.) ····· 68

FUJISAKI, K.: Studies on the mating system of the winter cherry bug, *Acanthocoris sordidus* THUNBERG (Heteroptera: Coreidae) I. Spatio-temporal distribution patterns of adults ····· 317

FUJITA, K., T. INOUE and A. TAKAFUJI: Systems analysis of an acarine predator-prey system. I ····· 105

HARDMAN, J. M. and A. L. TURNBULL: Functional response of the wolf spider, *Pardosa vancouveri*, to changes in the density of vestigial-winged fruit flies ····· 233

HIROSE, Y., Y. SUZUKI, M. TAKAGI, K. HIEHATA, M. YAMASAKI, H. KIMOTO, M. YAMANAKA, M. IGA and K. YAMAGUCHI: Population dynamics of the citrus swallowtail, *Papilio xuthus* LINNÉ (Lepidoptera: Papilionidae): mechanisms stabilizing its numbers ····· 260

KUSANO, T.: Breeding and egg survival of a population of a salamander, *Hynobius nebulosus tokyoensis* TAGO ····· 181

LAVIE, B. and U. RITTE: Correlated effects of the response to conditioned medium in the flour beetle, *Tribolium castaneum* ····· 228

MANLY, B. F. J.: A note on key factor analysis ····· 30

MURAI, M.: Dispersal and reproductive properties of sugarcane bugs, *Cavelerius saccharivorus* ····· 153

PITCHER, E. J. and B. L. KELLER: Aspects of interspecific interaction between *Reithrodontomys megalotis* and *Microtus montanus* in one acre enclosures ····· 81

REISEN, W. K., F. MAHMOOD and T. PARVEEN: *Anopheles subpictus* GRASSI: Observations on survivorship and population size using mark-release-recapture and dissection methods ····· 12

SINHA, R. N., H. A. H. WALLACE, B. REISER and L. P. LEFKOVITCH: Interrelations of arthropods and microorganisms in damp bulk stored wheat—A multivariate study ····· 40

SWARTZ, J. B. and D. L. DAHLSTEN: Sampling techniques and the use of TANG's procedure in insect population dynamics studies ····· 300

TAKAFUJI, A.: Population dynamics of some phytophagous mites and their predators on goldenrod *Solidago altissima* L. I. Seasonal trends in population numbers and spatial distributions 197
TAKEDA, H.: Ecological studies of collembolan populations in a pine forest soil IV. Comparison of distribution patterns 120
TELEKY, S. B.: Egg cannibalism in *Tribolium* as a model of interference competition 217
TSUBAKI, Y. and N. YAMAMURA: A model descriptive of gregariousness of colonial insect larvae 332
UÉDA, T.: Plasticity of the reproductive behaviour in a dragonfly, *Sympetrus parvulum* BARTENEFF, with reference to the social relationship of males and the density of territories 135
